

TRANSFORMATIVE HEALTHCARE CONSULTING

Virtual Experts

**Is your board in the process of choosing a new CEO?
Is your board interested in the role it plays to ensure
diversity, equity and inclusion at your organization?**

You tell us the current big issue, and we will bring the expert to you with a virtual presentation from one of our distinguished experts.

How does this work?

You select the topic, we book the expert and facilitate a virtual presentation event specifically for your organization.

FAQs

How long is a Virtual Presentation session?

Typical sessions are around 30-60 minutes long. This provides time for a brief presentation and questions directed to the subject matter expert.

What is the goal of a session?

The goal is to have direct access to a subject matter expert to help create clarity on a topic that is top of mind for your board.

Can you help us select a topic?

Absolutely. Let us know what you are interested in discussing and we can help you decide which topic might be best for your organization.

How long does it take to plan?

We would like approximately 30 days to coordinate schedules, facilitate a technology check, and provide the SME time to prepare for the event.

How do we interact with the SME?

The subject matter expert will be video conferenced into your board room. The Veralon team will do a technical check with both your team and the SME.

Do we all need to be in the same room?

Since this is a virtual event, all participants can join remotely with a computer, web camera, and microphone.
